

TUYIRINGIRE PACIFIQUE

COMPUTER SCIENCE EDUCATOR & SOFTWARE DEVELOPER

"Computer Science with Education scholar at the University of Rwanda and Head of Developers at NexaStack. Dedicated to transforming African learning through competency-based pedagogy (CBC), educational software architecture, and scalable technology solutions."

+250 781 343 621 | Kigali & Musanze, Rwanda

tpaccy6@gmail.com | NexaStack Lead

github.com/tpaccy6-star | paccyportfolio.vercel.app

KEY TECHNICAL & PEDAGOGICAL SKILLS

- TypeScript, JavaScript & Python
- React, Next.js & React Native
- C# (.NET / WPF) & PostgreSQL
- Competency-Based Curriculum (CBC)
- 5E Microteaching & SEN Inclusion
- Architecture Decisions & Code Reviews

EDUCATION

BACHELOR OF EDUCATION (CS)

University of Rwanda – CE
Dept of Mathematics & Computer Science
CS Pedagogy, Algorithms, Systems (Current)

SECONDARY SCHOOL DIPLOMA

GS KAMPANGA (Kinigi, Musanze)
FULL NESA AGGREGATES (Top Score)
Hired immediately to teach upon graduation

HONORS & FELLOWSHIPS

- Mastercard Foundation Fellow
SEF 2.0 / HATANA Residential Bootcamp
- Q-Solve Kenya Hackathon 2026
Pan-African EdTech + FinTech Solution Architect
- Huye Hackathon Semi-Finalist
Incubated civic innovation prototype

LEADERSHIP & SERVICE

- GBUR Active Member & Leader
Groupe Biblique Universitaire du Rwanda
Campus Bible study, discipleship & integrity
- Horeb Family Choir Secretary
Official documentation, logistics & records
- Community Outreach Lead
Nyagahandagaza Secondary School mentorship

LANGUAGES

English	Fluent / Academic (95%)
Kinyarwanda	Native (100%)
French	Working (65%)

PROFESSIONAL & TEACHING EXPERIENCE

HEAD OF DEVELOPERS

NexaStack (nexastack.net)

2024 – PRESENT

Kigali, Rwanda

- Engineering lead running developer teams — owning code reviews, architecture decisions, and full-stack product releases.
- Enforce rigorous testing, CI/CD pipelines, and high software quality benchmarks across React, React Native, and backend APIs.

COMPUTER SCIENCE TEACHER INTERN

GS MUHOKORO — Murambi Sector, Rulindo District

JAN 2026 – PRESENT

- Pioneered resource-resilient pedagogy for a school of ~2,500 students with a Positivo BGH fleet of only 5–6 functional laptops.
- Instructed Senior 4 HGL in practical HTML web development through pair-rotations and Senior 3 ICT (68 learners) with SEN inclusion.

SECONDARY SCHOOL TEACHER (INTERIM COVER)

GS KAMPANGA — Kinigi Sector, Musanze District

2023 – 2024

- Delivered interactive 5E-model microteaching on algorithm design, branching logic, and computational problem solving.
- Graduated secondary school at GS KAMPANGA with Full NESA Aggregates (maximum national exam score) and appointed to teach.
- Stepped in as interim secondary teacher replacing former teacher on maternity leave, ensuring complete instructional continuity.

SELECTED SOFTWARE SYSTEMS & ARCHITECTURE

FluentEdge Academy Hub

[React, Node.js, Cryptographic Ledger]

Tiered learning hub (Levels -> Courses -> Lessons) featuring live CEFR progress tracking and automated cryptographic certificate verification.

HLI Timetable Scheduler

[React, TypeScript, Constraint Solver]

NP-hard constraint optimization system resolving multi-faculty room and lecturer schedule collisions across University of Rwanda.

QuizMaster V2 Examination System

[C#, WPF, TCP Socket Server, SQLite]

Offline computer-based testing suite serving 60+ concurrent student workstations over local LAN with real-time analytics and CSV export.

ImbutoBooks Learning Reader

[React, PWA, Service Workers, IndexedDB]

Ultra-lightweight offline textbook and syllabus reader enabling curriculum study in schools with intermittent electricity and internet.

CORE ATTRIBUTES & PROFESSIONAL PILLARS

Competency-Based Curriculum (CBC)

Code Architecture & CI/CD

Full-Stack Delivery

Resource-Resilient Pedagogy

Servant Leadership & Integrity

Empirical Data Research
