

TUYIRINGIRE PACIFIQUE

COMPUTER SCIENCE EDUCATOR & SOFTWARE DEVELOPER

"Computer Science with Education scholar at the University of Rwanda and Head of Developers at NexaStack. Dedicated to transforming African learning through competency-based pedagogy (CBC), educational software architecture, and scalable technology solutions."

+250 781 343 621 | Kigali & Musanze

tpaccy6@gmail.com | NexaStack Lead

github.com/tpaccy6-star | Portfolio Live

TECHNICAL & PEDAGOGICAL SKILLS

- TypeScript, JavaScript & Python
- Competency-Based Curriculum (CBC)
- React, Next.js & React Native
- 5E Model & SEN Inclusion
- C# (.NET / WPF) & PostgreSQL
- Database Architecture & Revit

EDUCATION

BACHELOR OF EDUCATION (CS)

University of Rwanda – CE
Dept of Mathematics & Computer Science
CS Pedagogy, Algorithms, Systems (Current)

SECONDARY SCHOOL DIPLOMA

GS KAMPANGA (Kinigi, Musanze)
FULL NESA AGGREGATES (Top Score)
Hired immediately to teach upon graduation

HONORS & FELLOWSHIPS

- Mastercard Foundation Fellow
SEF 2.0 / HATANA Residential Bootcamp
- Q-Solve Kenya Hackathon 2026
EdTech + FinTech Solution Architect
- Huye Hackathon Semi-Finalist
Incubated civic tech innovation prototype

LEADERSHIP & SERVICE

- GBUR Active Member & Leader
Groupe Biblique Universitaire du Rwanda
Campus Bible study, discipleship & integrity
- Student Union Governance
University of Rwanda Academic Delegate
Peer tutoring & student welfare advocacy
- Community Mentorship Lead
Nyagahandagaza Secondary School outreach

LANGUAGES

English	Fluent / Academic (95%)
Kinyarwanda	Native (100%)
French	Working (65%)

PROFESSIONAL & TEACHING EXPERIENCE

HEAD OF DEVELOPERS

NexaStack (nexastack.net)

2024 – PRESENT

Kigali, Rwanda

- Engineering lead running developer teams — owning code reviews, architecture decisions, and full-stack delivery.
- Enforces rigorous automated testing, CI/CD pipelines, and high quality benchmarks across web & mobile systems.
- Mentors junior engineers and aligns sprint technical deliverables directly with client product milestones.

COMPUTER SCIENCE TEACHER INTERN

GS MUHORORO — Murambi Sector, Rulindo District

JAN 2026 – PRESENT

- Pioneered resource-resilient pedagogy for a school of ~2,500 students with a Positivo BGH fleet of only 5–6 functional laptops.
- Instructed Senior 4 HGL in practical HTML web development via pair coding and Senior 3 ICT (68 learners) with SEN inclusion.
- Delivered interactive 5E-model microteaching introducing algorithm design, branching logic, and computational problem solving.

SECONDARY SCHOOL TEACHER (INTERIM MATERNITY COVER)

GS KAMPANGA — Kinigi Sector, Musanze District

2023 – 2024

- Graduated secondary school at GS KAMPANGA with Full NESA Aggregates (top national score) and appointed to teach.
- Stepped in as interim secondary teacher replacing former teacher on maternity leave, ensuring complete instructional continuity.
- Structured lesson plans, marked examinations, and guided secondary students through computing and analytical problem-solving.

SELECTED SOFTWARE SYSTEMS & ARCHITECTURE

FluentEdge Academy Hub [React, Node.js, Cryptographic Ledger]

Tiered learning hub (Levels -> Courses -> Lessons) featuring live CEFR progress tracking and automated cryptographic certificate verification.

HLI Timetable Scheduler [React, TypeScript, Constraint Solver]

NP-hard constraint optimization system resolving multi-faculty room and lecturer schedule collisions across University of Rwanda.

QuizMaster V2 Examination System [C#, WPF, TCP Socket Server, SQLite]

Offline computer-based testing suite serving 60+ concurrent student workstations over local LAN with real-time analytics and CSV export.

ImbutoBooks Learning Reader [React, PWA, Service Workers, IndexedDB]

Ultra-lightweight offline textbook and syllabus reader enabling curriculum study in schools with intermittent electricity and internet.

CORE ATTRIBUTES & PROFESSIONAL PILLARS

Competency-Based Curriculum (CBC)

Code Architecture & CI/CD

Full-Stack Delivery

Resource-Resilient Pedagogy

Servant Leadership & Integrity

Empirical Data Analytics
